# Guided Adoption Process

## Step 1: Create Course

**Note:** All fields marked with a red asterisk ( \* ) are required.

<a href="#">Continue</a>	<a href="#">Cancel</a>
--------------------------	------------------------

Select the term, department and course information on this page. If you do not see the department you need to adopt from on the dropdown menu for departments, choose the “Add Department” link to add more departments to your profile.

To filter by instructor (which displays only the course and section numbers associated with that instructor) choose the instructor’s name from the dropdown. It’s not necessary to filter the courses by instructor, although it may be helpful if your department has a lot of courses.

If you cannot find the course number in the course dropdown, click the “Add Course” link to the right of the dropdown to type in your course information.

If you do not plan on requiring any materials for the course, please check the box on this page. If this box is unchecked and you have not adopted any books for the course, the system will not accept your adoption.

## Step 2: Find Books

There are several ways to find books to adopt. You can look at your book list, you can browse books by subject, you can search for books by ISBN, title or author, or you can look at the history of the course to find books.

In this step, you will need to select whether the book is required, recommended, optional or a study aid. You can also include a message to the bookstore. This is a good spot to include a message about any merchandise (calculators, graph paper, lab equipment) that you would also like included in the course requirements.
